Morphological and sequence-related amplified polymorphism-based molecular diversity of local and exotic wheat genotypes - Genet. Mol. Res. 15 (2): gmr.15027484

Published online: April 27, 2016 (DOI: 10.4238/gmr.15027484)

Corrected after publication: May 20, 2016

(DOI: 10.4238/gmr.150274841)

The correction is only in the name of the species studied and should be *Triticum aestivum*, instead of *Triticum sativum*.
